

Dear Clients,

We earnestly ask you to check the correctness of the details of ALROSA, its subdivisions, affiliates and controlled companies before conducting a transaction.

According to Rosfinmonitoring, incidents of fraud have become more frequent when foreign companies receive through electronic communication channels false commercial offers from people who pretend to be large enterprises. Settlement accounts in the offers are actually opened for individuals whose transliterated names coincide with the names of renowned companies. There is up to 100% of coincidence in English in the spelling of fake names with the names of real companies.

Not to become scam victims, be sure to check the correctness of the Company details by contacting directly the Company's accounting department by phone or e-mail listed in the Contacts section on the official website of [alrosa.ru](http://alrosa.ru).
